

BT910

New 6V and 12V battery tester with printer and color TFT-LCD display.

Highlight of BT910

TFT-LCD Display

Improved user interface.
Excellent language support.

Companion PC Software

Great for test report storage,
review, and management.

Firmware Update

Ready for new features and
future battery technologies.

6/12V Battery Test

6/12V Battery Test

Support most 6V and 12V lead-acid batteries.

12/24V System Test

12/24V System Test

A comprehensive test of the
starting and charging system.

Built-in Printer

Print test result right on the
tester.

Brand New User Interface

Buttons and Icons are arranged in a clear and easy to understand manner.

Powerful Search Tool

Test data can be searched with keywords.

Multi-Language Support

Supports the same language options as the BT910.

Export Data for Research

Test data can be exported as .csv or .xlsx file for further research.

Specification

BT910 – Specification Sheet

Application	6V and 12V Battery Test 12V Start-Stop Battery Test 12V and 24V Starting and Charging System Test
CCA Range	25 to 2,000 CCA/SAE
Supported Battery Type	Flooded, EFB, AGM Flat Plate, AGM Spiral, GEL
Supported Rating	CCA/SAE, EN, EN2, IEC, JIS, DIN, CA/MCA
Clamp-Cable Set	0.8m (approx. 1.9ft)
USB Interface	USB Type-C
PC Software Support	Yes (Test Result Review and Management, Firmware Update)

Firmware Update	Yes
Display	TFT-LCD
Printer	2" Easy-Load Thermal Printer (with DIY information)
Internal Battery	6 x AA Battery
Input Device	Hardware Buttons (Up/Down/Enter)
Dimension (L x W x H, approximate)	249 x 103 x 78 mm (approx. 9.8 x 4 x 3 inches)
Certification	CE and UKCA
Operating Languages	English, French, German, Spanish, Italian, Portuguese, Dutch, Polish, Turkish, Chinese (Traditional & Simplified)

BT910 vs. BT900

	BT910	BT900
